

PROJECT INFORMATION

Project Name:
Westview Ground Storage and Pump Station Improvements

Strategic Priority:
 Infrastructure - Water Transmission and Storage

Council District(s):
 3

Type of Project: Water **Department:** Utilities

Project Description

This project involves removing the 6-million-gallon Westview Ground Storage Tank (GST) from service, repairing the structure, replacing piping, pumps and motors, as well as upgrading the electrical system.

Project History

The existing Westview GST is, roughly, 65 years old. Improvements to the tank will address structural issues. Aged piping, pumps and motors will be replaced and the electrical system will be modernized.

Community Benefit

This project will improve water quality, aid in water conservation, improve operational electrical efficiency and provide pumping redundancy for the water system.

Estimated Project Cost

\$3,000,000

Estimated Duration: 6 months

Project Status: Design in 2018

Project Info Updated: 01/05/2017
